Product Rationalizations – SIGMAZINC™ 109 HS and SIGMAZINC™ 68 SP

Dear Valued Customer,

In line with our effort to have a more sustainable product range in our coatings, as well as continuously optimizing our product range and offering you best product in class, we are moving forward with the deletion of *SIGMAZINC 109 HS* and *SIGMAZINC 68 SP* in the EMEA region.

We have recently launched **SIGMAZINC™ 68 GP** a new Zinc Rich Epoxy Primer that can be used as a direct replacement for *SIGMAZINC 109 HS* or *SIGMAZINC 68 SP*.

SIGMAZINC 68 GP offers a number of benefits:

- **Excellent Anticorrosive Properties:** incorporating a high level of zinc pigmentation
- **Complies with the composition requirements of coating standards:** ISO 12944 and Norsok M501
- **Quick drying and fast over coating:** Enabling fast throughput in shop applications
- **Lower VOC than comparable products:** safer application and for the environment
- **No need for thinning:** safer for the environment

Should you have questions about the most suitable replacement for *SIGMAZINC 109 HS* and *SIGMAZINC 68 SP* in your particular field of application, please contact your local technical support or sales representative who will guide you towards the best solution.

The phase out of *SIGMAZINC 109 HS* and *SIGMAZINC 68 SP* is targeted for end Q1 2023

Yours Faithfully

Clémentine Mathieu
Product Manager PMC EMEA
